1. PRODUCT IDENTIFICATION

Company: REPSOL YPF Lubricantes y Especialidades, S.A.
Commercial name: REPSOL SUPER TAURO PAG 1000.

Address: Glorieta del Mar Caribe N°1. 28043 Madrid
Chemical name: NP.

Tel# 34 913489400
Fax# +34 913483610
e-mail address: FDSRCPP@repsol.com

Synonyms: Sliding/lubricant agent.
Molecular formula: NP
CAS #: NP

EC (EINECS)#: NP
Annex I (Dir. 67/548/EEC)#: NP

2. HAZARDS IDENTIFICATION

<table>
<thead>
<tr>
<th>PHYSICAL / CHEMICAL</th>
<th>TOXICITY (SYMPTOMS)</th>
</tr>
</thead>
<tbody>
<tr>
<td>In case of heating above 150°C or fire, it may emit toxics fumes.</td>
<td><strong>Inhalation</strong>: Vapour inhalation at room temperature is unlikely because of its low viscosity. Repeated and prolonged exposures to high concentrations of vapours may cause respiratory tract irritation and pulmonary damage.</td>
</tr>
</tbody>
</table>

| **Ingestion/Aspiration**: Accidental intake of large amounts causes irritation of the gastrointestinal tract, nausea, vomiting and diarrhoea. |

| **Contact skin/eyes**: Repeated and prolonged exposures produce smarting, redness, irritation and dermatitis due to defatting of the keratin layer. No skin sensitization has been registered in animal tests. Hot liquid may cause burns. It may irritate eyes. |

| **General toxic effects**: Skin irritation by contact with liquid product and by prolonged inhalation of fumes and aerosols. Hot liquid may cause burns. |

3. COMPOSITION

**General composition**: Additivated polyalkylene glycol.

4. FIRST-AID MEASURES

**Inhalation:** Move the victim to fresh air. Administer oxygen if necessary. Call for medical attention.

**Ingestion/Aspiration:** DO NOT INDUCE VOMITING. Flush the mouth with water. Do not give anything by mouth to an unconscious or convulsing person. Call for urgent medical attention.

**Contact skin/eyes:** Flush with plenty of water and soap. In case of contact with eyes, flush with plenty of water during at least 15 minutes. Call for medical attention.

**General measures:** Call for medical attention.

5. FIRE-FIGHTING MEASURES

**Extinguishing agents:** Foams, dry chemicals, CO₂, water spray.

**Non suitable extinguishing agents:** Water applied directly may be ineffective due to product dispersion.

**Combustion products:** Complete combustion: CO₂ and H₂O. Incomplete combustion: CO and other toxics fumes.

**Special measures:** Cool containers and surroundings with water spray.

**Special hazards:** NP

**Protective equipment:** Heat-resistant suit and gloves. Self-contained breathing apparatus.

6. ACCIDENTAL RELEASE MEASURES

<table>
<thead>
<tr>
<th>Environmental precautions:</th>
<th>Keep the product away from drains, sewers and water sources.</th>
<th>Personal precautions:</th>
<th>Keep unnecessary people away. Avoid prolonged contact with liquid product wearing suitable protective clothing.</th>
</tr>
</thead>
<tbody>
<tr>
<td>Cleanup methods:</td>
<td>Small spillages: Take up with dry sand or other non-combustible absorbent material and place into containers for later recovery or disposal. Large spillages: Dike far ahead of liquid spillage and pump with vacuum equipment into containers for later disposal.</td>
<td>Personal protection:</td>
<td>Suitable protective clothing, gloves and goggles should be worn during the clean up operation.</td>
</tr>
</tbody>
</table>
7. HANDLING AND STORAGE

Handling:

General precautions: Avoid inhalation of vapours or aerosols wearing breathing suitable protective clothing. Good local exhaust ventilation. Avoid contact with the product wearing suitable protective clothing, PVC gloves and safety goggles or visors to avoid splashes. Do not smoke, drink, or eat during handling.

Specific conditions: NP.

Storage:

Temperature and decomposition products: The product may decompose above 150°C and emits CO, CO₂ and other toxics fumes.

Dangerous reactions: NP

Storage conditions: NP

Incompatible materials: Oxidants and reductor agents.

8. EXPOSURE CONTROLS/PERSONAL PROTECTION

Personal protection:

Eye protection: Safety goggles to avoid splashes.

Respiratory protection: The product is slightly volatile at room temperature and does not present special risks. At high concentrations of vapours or aerosols, wear protective respiratory masks (combined filter AP-3).

Skin protection: PVC gloves, with thick above 1milimeter.

Other protective equipment: Showers and eye-washers in the working area.

General precautions: Avoid prolonged contact and inhalation of vapours and aerosols from the product. Local exhaust ventilation should be installed to capture and remove emissions near to the point of generation.

Specific hygiene measures: Care should be taken to ensure proper skin cleaning by washing thoroughly with soap and hot water, followed by the application of a skin re-conditioning cream. Do not use solvent-based skin cleaner.

Exposure controls: None established.

### 10. STABILITY AND REACTIVITY

| Stability                        | Stable at room temperature.                |
| Conditions to avoid              | Exposure to open flames.                   |
| Materials to avoid               | Strong acids, oxidants agents and reductor agents. |
| Hazardous decomposition/combustion products | The product may decompose above 150°C and emits CO, CO₂ and other toxics fumes. |
| Polymerization risk              | NP                                         |
| Conditions to avoid              | NP                                         |

### 11. TOXICOLOGICAL INFORMATION

| Routes of exposure               | Contact with skin, eyes and inhalation. Ingestion is not frequent. |
| Acute and chronic effects        | Irritation by contact with liquid product and by prolonged inhalation of vapours or aerosols. Hot liquid may cause burns. |
| Carcinogenicity                  | NP                                         |
| Reproductive toxicity            | No evidences.                              |
| Medical conditions which increase hazard to exposure | Dermatological problems. |

REPSOL SUPER TAURO PAG 1000.

**Rev.: 1.0**  **Date:** June 1st 2007  **Doc:** 33/3379/5L.06  **4 de 6**
12. ECOLOGICAL INFORMATION

Pollutant potential:

*Persistence and degradability:* There are not specific dates on the product although their components may cause long-term adverse effects in the aquatic environment.

*Mobility/bioaccumulative potential:* There are no specific dates on the product.

Ecotoxicological effects: Dangerous for aquatic life in high concentrations (spillages).

13. DISPOSAL CONSIDERATIONS

Disposal methods (surplus): Recycling and recovery of base oils when possible.

Waste: Liquids and solids from industrial process; do not attempt to clean containers since residue is difficult to remove; dispose in a safe way.

*Disposal:* Only in specific prepared and controlled areas. Avoid releasing waste oils to sewers.

*Handling:* Labelled and sealed containers. Avoid direct contact with waste oils.

*Provisions:* Companies which recover, dispose, store, transport or handle waste should comply with Dir. 2008/98/EC on waste, or other local, national or community provisions.

14. TRANSPORT INFORMATION

Special precautions: Stable at room temperature and during transport.

Additional information:

- UN Number: NP
- Hazard identification number: NP
- Proper shipping name: NP
- ADR/RID: Not classified
- IATA-DGR: Not classified
- IMDG: Not classified
