

# **Grasa Iberfarm 88**

## Description

A lithium based grease, of very fluid consistency, especially designed for lubricating cotton harvesters' arbours and axles. This product is very stable with a high melting-point, which reduces consumption and splashing.

## Properties

- Excellent fluidity at a wide range of temperatures.
- Great mechanism protection.
- Good adherence and sticking properties.

## Quality level

• DIN 51502 G 00G

#### **■** Technical characteristics

	UNIT	METHOD	VALUE
Colour		Visual	Light green
Consistency		NLGI	00
Type of soap			Lithium
Penetration, 25° C			
- Producing 60,000 strikes	1/10 mm	ASTM D 217	400
- Producing 100,000 strikes	1/10 mm	ASTM D 217	410

#### Hazard identification

This product is not classified as toxic or hazardous under current legislation.

#### Handling

Minimum precautions should be taken to avoid prolonged contact with the skin. The use of gloves, visors or glasses is recommended to avoid splashes.

## Health and Safety Hazards

**Inhalation:** Given that it is not a particularly volatile product, the risk of inhalation is minimal.

**Ingestion:** Do not induce vomiting. Provide water. Seek medical advice.

**Contact with the skin:** Wash with plenty of water and soap.

Eyes: Wash thoroughly with water.

General measures: Seek medical advice.

## **■** Fire-fighting measures

No special measures required.

**Fire-extinguishing measures:** Foams, dry chemicals, CO2, water spray. Do not apply the jet of water directly as this could cause the product to disperse.

# Environmental precautions

Danger of physical pollution if spilt (water, coastlines, soil, etc.) due to its floatability and oily consistency that may harm flora and fauna on contact. Avoid material getting into water outlets.

**Decontamination and cleaning:** Treat like an accidental oil spill. Prevent dispersion using mechanical barriers and remove by physical or chemical means.

A safety information file is available on request.
