SERIE 3

**DIESEL LUBRICANTS**

### Description

Monograde mineral lubricant oil with great detergent power. Specially recommended for public works machinery and stationary engines. Also suitable for use in aspirated and slightly supercharged diesel engines working in moderate or severe conditions with frequent drainage periods.

### Properties

- Its high detergency eliminates the products produced by the combustion of the hottest parts of the engine. It keeps the segment shafts clean and ensures perfect watertightness.
- Conservation and prolongation of engine life.
- Its alkaline reserve (TBN) enables it to protect the engine against corrosion by neutralising the acids formed in the combustion of diesel with different sulphur contents.
- It maintains an adequate pressure in all working conditions.
- Good anti-wear properties, which leads to minimal wear in engine parts; the latter maintains its maximum power for a long time.

### Quality level

- API CF/SF
- ACEA E2
- ALLISON C3
- MB 228.0
- MAN 270
- MTU Type 1
- CATERPILLAR TO2

### Available in

- REPSOL Serie 3 SAE 30: 5 litre plastic container, 185 kg and 18 kg drum, 875 kg container and bulk.
- REPSOL Serie 3 SAE 40: 1 and 5 litre plastic container, 185 kg and 18 kg drum, 875 kg container and bulk.
- REPSOL Serie 3 SAE 50: 185 kg and 18 kg drums.
**Hazard identification**

This product is not classified as toxic or hazardous under current legislation.

**Handling**

Minimum precautions should be taken to avoid prolonged contact with the skin. The use of gloves, visors or glasses is recommended to avoid splashes.

**Health and Safety Hazards**

- **Inhalation**: Given that it is not a particularly volatile product, the risk of inhalation is minimal.
- **Ingestion**: Do not induce vomiting. Provide water. Seek medical advice.
- **Contact with the skin**: Wash with plenty of water and soap.
- **Eyes**: Wash thoroughly with water.
- **General measures**: Seek medical advice.

**Fire-fighting measures**

No special measures required.

**Fire-extinguishing measures**: Foams, dry chemicals, CO2, water spray. Do not apply the jet of water directly as this could cause the product to disperse.

**Environmental precautions**

Danger of physical pollution if spilt (water, coastlines, soil, etc.) due to its floatability and oily consistency that may harm flora and fauna on contact. Avoid material getting into water outlets.

**Decontamination and cleaning**: Treat like an accidental oil spill. Prevent dispersion using mechanical barriers and remove by physical or chemical means.

A safety information file is available on request.
